

## TTM002: Thymic Tumour Tissue Microarray

15 cases / 18 cores, include pathology diagnosis and tumour grading.

### Description

|                   |                                                                                                                                                                                                                                                                                             |
